RULES AND REGULATIONS

1. These rules and regulations are in addition to the rules of the Kentucky Public Service Commission.
2. Not used.
3. Water service will be terminated within 24 hours after receiving a written request from the customer requesting discontinuance. Request for discontinuance may also be made in person. Water service will be terminated by phone provided customer gives their Social Security Number. The Hendron Water District Office Hours are 8:00 AM to 4:30 PM, Monday through Friday.
4. The District may require any applicant for service to pay a cash deposit to assure payment of bills. This deposit will be based on average bills of similar customers in the District. This deposit shall not exceed two-twelfths (2/12) of the estimated annual bill of such customer.

The District shall place the deposits in a special account where interest is allowed to compound. Interest gained on the deposits shall be refunded or credited to the customer's bill on an annual basis.

If the District retains a customer's deposit for more than eighteen (18) months, the District shall notify the customer in writing that, at the customer's request, the deposit will be re-calculated every eighteen (18) months based on the customer's actual usage. If the deposit on account with the District differs by more than ten dollars (\$10.00) for residential customers, or by more than ten percent (10%) for non-residential customers, from the deposit calculated from actual usage, then the District shall refund any over payment and may collect any under payment by a credit or an addition to the customer's bill.

The District requires a customer applying for service to sign a Contract For Water Service. A copy of this Contract is ~~contained on the~~ next page.

CONTRACT FOR WATER SERVICES

THIS CONTRACT made and entered into this _____ day of _____, 19____, between _____, whose address is _____, party of the first part, and HENDRON WATER DISTRICT, 4410 A. T. Massa Drive, Paducah, Kentucky 42003, party of the second part.

WITNESSETH THAT for and in consideration of the efforts of the party of the second part, acting through water District Commissioners the party of the first part agrees to pay a connection fee of _____ at the time of signing this contract to connect to the water system and to pay at least a minimum bill monthly thereafter as soon as the _____ (size) meter is installed by the District and water is made available to the meter regardless of whether the first party connects to the system.

The party of the first part agrees to permit the District to maintain, repair, remove and disconnect a service line and meter and read meters at a point on customer's property to be designated by the District for each signed connection with the right of the ingress and egress on property.

The party of the first part agrees that no other present or future sources of water will be connected to any waterlines serviced by the District's waterlines and will disconnect from his present water supply prior to connecting to and switching to the District's system and shall eliminate their present or future cross-connections in his system.

CONTRACT FOR WATER SERVICES

(Continued)

A separate water meter must be installed for each residence. A separate contract will be required for each trailer park.

The party of the first part shall install and maintain at his own expense a service line which shall begin at the meter and extend to the dwelling or place of use.

The party of the first part agrees to comply with and be bound by the Articles, Bylaws, Rules and Regulations of the District now in force or as hereafter duly and legally supplemented, amended or changed.

RULES AND REGULATIONS

=====

10. The District will not furnish free water to any person for any purpose.
11. The District will not allow temporary services. A meter may be put on a fire hydrant for one (1) week with a \$25.00 service charge and a water charge based on standard rates between May 1 and October 31. Otherwise customers are required to tap the main.
12. The District shall terminate a customer's service for non-payment of a bill; if, twenty (20) days after the date of billing, payment has not been received. The District shall issue a written Termination Notice to the delinquent customer ten (10) days prior to date of disconnection. The District shall not terminate service for thirty (30) days beyond the date of termination if a physician, registered nurse, or public health officer certifies in writing that termination of service will aggravate a debilitating illness or infirmity on the affected premises. Also, if the District receives payment after the issuance of the Termination Notice, but before the disconnection date, the customer's service will not be disconnected. If the District does not receive payment within fifteen (15) days of date of billing, a penalty of ten percent (10%) of the bill shall be added to the bill.

The District shall require a Reconnection Fee and payment of all delinquent water bills, including penalties, in full, before reconnection is made for non-payment.

- A Fee of \$15.00 shall be required for reestablishing service when water is shut off, but meter remains in place. If service is reestablished after office hours or on weekends and holidays, the Fee will be \$35.00.
- A Fee of \$25.00 shall be required for reestablishing service when the water is shut off, and the meter is physically removed. If service is reestablished after office hours or on weekends and holidays, the Fee will be \$50.00.

RULES AND REGULATIONS

=====

15. The District shall perform periodic tests on water meters. If a meter in service is found to be more than two percent (2%) fast or slow, additional tests shall be performed to determine the average error of the meter. The District shall also perform meter tests as a result of a request or complaint by a customer.

If the test results on a customer's meter show an average error greater than two percent (2%) fast or slow, the District shall immediately determine the period during which the error occurred, and re-calculate and adjust the customer's bill, providing either a refund or an additional amount of payment from the underbilled customer.

16. At least once annually, the District will monitor the usage of each customer using the following procedure:
- a. The customer's annual usage for the most recent 12-month period will be compared with the annual usage for the 12 months immediately preceding that period.
 - b. If the annual usage for the two periods are generally the same or if any major difference can be attributed to certain circumstances, such as unusual weather conditions, common to all customers, no further review will be done.
 - c. If the annual usages differ by 20% or more and cannot be attributed to a readily identified common cause, the District will compare the customer's monthly usage records for the 12-month period with the monthly usage for the same months of the preceding year.

RULES AND REGULATIONS

16. (Continued)

- d. If the cause for the usage difference cannot be determined from analysis of the customer's meter reading and billing records, the District shall contact the customer by telephone or in writing to determine whether there have been changes such as different number of household members or work staff, additional or different appliances, changes in business volume, or known leaks in the customer's service lines.
- e. Where the usage difference is not otherwise explained, the District will test the customer's meter to determine whether it shows an average error greater than two percent (2%) fast or slow.
- f. The District will notify the customers of the investigation, its findings, and any refunds or back billing.

In addition to the annual monitoring, the District will immediately investigate usage differences brought to its attention as a result of its on-going meter reading, billing processes or customer inquiry.

17. Multiple Services.

A. Permanent Single Family Dwellings.

Under no circumstances shall more than one permanent single family residential dwelling be provided service through a single meter.

B. Commercial Trailer Park.

- (1) Definition. A commercial trailer park shall be defined as two (2) or more units occupying a common parcel of land and producing revenue or two (2) or more units designated as a trailer park by the Kentucky Department of Health for reasons of health and public welfare.

RULES AND REGULATIONS

=====

17. B. (Continued)

- (2) Minimum Bill. Rates set forth herein are based on the capacity of the trailer park whether filled or not. For purposes of determining the park capacity, the park owner shall submit a plat of development to the District. Payment for water purchased shall be 50% of the regular residential minimum times the number of trailer spaces available (includes 50% of residential minimum gallonage times number of spaces available). Balance of usage billed at regular residential rate schedule.
- (3) Meter Size. The utility shall determine the size of meter necessary to provide adequate services and the meter installation shall be paid for by the customer at the prescribed rate in effect. The following schedule of meter sizes and maximum number of trailer spaces shall be adopted as the basis for selection by the Water District under normal conditions:

<u>Meter Size</u>	<u>Maximum Gallonage</u>	<u>Maximum Number Of Trailer Spaces</u>
5/8" x 3/4"	20 gpm	6
3/4"	30 gpm	9
1"	50 gpm	18
1-1/2"	100 gpm	40
2"	160 gpm	80

Any additional charge for increasing the meter size at some future date shall be paid by the Owner at the actual cost to the utility less any salvage value for the meter removed.

Anyone desiring service under the commercial trailer park regulation shall not serve a residential home or homes without paying a full minimum bill for such residential home.

RULES AND REGULATIONS

17. (Continued)

C. Multi-Family Dwellings

- (1) Definition. A multi-family dwelling shall be defined as a permanent structure housing two or more families and producing revenue. Included in this definition are duplex, tri-plex, and apartment buildings.
- (2) Minimum Bill. Rates set forth herein are based on the unit capacity of the structure whether filled or not. Payment for water purchased shall be based upon the total consumption registered by the meter per month divided by the number of dwelling units available and each shall be billed at the regular residential rate structure for its pro-rate share as if each unit were an individual customer.
- (3) Meter Size. The utility shall determine the size of meter necessary to provide adequate services and the meter installation shall be paid for by the customer at the prescribed rate in effect. The following schedule of meter sizes and maximum number of trailer spaces shall be adopted as the basis for selection by the Water District under normal conditions:

<u>Meter Size</u>	<u>Maximum Gallonage</u>	<u>Maximum Number Of Units Available</u>
5/8" x 3/4"	20 gpm	6
3/4"	30 gpm	9
1"	50 gpm	18

RULES AND REGULATIONS

17. (Continued)

D. Other Combinations

Multiple service for a permanent single family residential dwelling in combination with trailer homes, and trailer homes not otherwise classified as a commercial trailer park may be served from a single meter. In such cases, the total consumption registered by the meter per month will be divided by the number of dwelling units being served and each shall be billed at the regular residential rates for his pro-rate share as if he were an individual customer.

18. Extension of Main.A. Normal Extension.

Any prospective customer who wishes to apply for water service and presently does not have a main located along their property will be required to do the following:

1. The Applicant must submit to the District a written request for service. The District will then prepare a project estimate to cover costs incurred by the District, including materials, labor, engineering, inspection, testing, disinfection, water, and other costs associated with extending service to the applicant's property.
2. This estimate will then be used to calculate the average cost per foot of the extension. Unless Applicant has entered into a special "water main extension agreement" with the District, the applicant will be required to deposit with the District the estimated cost for this extension less the cost of the first 50 feet which the District will incur. If more than one (1) applicant will be served by this extension, the District will incur the cost of 50 feet for each applicant. Records of the cost associated with the extension will be kept by the District and made available to the applicant upon request.

Hendron Water District

Name of Issuing Corporation

RULES AND REGULATIONS

18. A. 3. Upon completion of construction, the actual cost per foot of the extension will be calculated. If the estimate was greater than the actual cost, the balance will be refunded to the applicant, and if the estimate was less than the actual cost, the applicant will be required to pay the balance within 30 days of completion of the extension. For a period of ten (10) years, the applicant will be refunded the cost for 50 feet of the extension for each additional customer that connects directly to the extension. This refund will be made to the applicant at the end of each year of the refund period. The refunded amount shall not exceed the amount paid to the District.
4. The Applicant will also be required to dedicate a 15' permanent utility easement across the width of their property for future extension of the water main.

B. Extension To A Real Estate Subdivision.

- (1) Applicants Cost of Extension. An Applicant desiring an extension to a real estate subdivision will initially be required to deposit a minimum of \$1,000.00 with the District prior to the development of preliminary construction drawings and cost estimate by the District's authorized engineering representative. If after the development of this preliminary information, the applicant withdraws the application for the real estate subdivision extension, the excess deposit over and above the actual administrative costs incurred by the District on the extension up to the time of withdrawal will be refunded to the applicant. Should the applicant desire to continue with the extension, the District may require the total estimated cost of the extension to be deposited with the District by the applicant. The preliminary costs incurred by the District and the initial deposit paid by the applicant will be included in the total estimated costs and total required deposit, respectively. This deposit shall be made within ten (10) working days of the District's approval of the preliminary project cost estimate. The cost of the total extension shall be established from accurate records of construction cost by the District, including materials, labor, supervision, engineering, testing, disinfection, water and such other costs incurred by the District.

RULES AND REGULATIONS

18. B. (1) (Continued)

Records of cost shall be maintained by the District and made available to the applicant receiving service. If after the construction of the extension, the actual total cost of the extension is less than the total amount deposited by the applicant, the excess shall be refunded to the applicant. If the actual total cost of the extension is greater than the total amount deposited with the District by the applicant, an amount equal to the excess in cost shall be deposited with the District prior to the District's final acceptance of the extension.

If the balance is not deposited with the District within 30 days of the notice given the applicant by the District, a 2% surcharge will apply. This surcharge will be applied each 30 days the balance is not deposited.

- (2) Applicants Reimbursed for Cost of Extension. Each year for a period of not less than 10 years, the Hendron Water District shall refund to the applicant who paid for the extension a sum equivalent to the cost of 50 feet of the extension installed for each additional customer connected during the year but in no case shall the total amount refunded exceed the amount paid to the District. After the end of the refund period from the completion of the extension (10 years), no refund will be required to be made.

C. Construction Procedure.

- (1) Extensions by Water District. Water line extensions extended to customers under Item (A) Normal Extension; (B) Extension to a Real Estate Subdivision, shall be installed by the Water District's forces, or by a competent contractor employed by the Water District or by the person or persons desiring service and approved in writing by the Water District.

RULES AND REGULATIONS

18. C. (2) Construction Drawings. Plans and specifications for proposed extensions shall be prepared by the Hendron Water District's authorized engineering representative shall comply with the District's standards, shall meet the requirements of the Kentucky Division of Water, Kentucky Department of Health, the Public Service Commission and other applicable federal, state and local regulating agencies.
- (3) Real Estate Subdivision Plats. A reproducible plat of a real estate subdivision as recorded in the County Court Clerk's office shall be furnished by the developer for use by the District's Engineer in laying out the proposed water lines. This shall be on computer diskette when possible.
- (4) Utility Easements. Water mains shall generally be laid in a 15 foot permanent easement on private property. A 15 foot temporary construction easement adjacent to the 15 foot permanent easement shall also be required where practical, from each private property owner. The cost of obtaining easements shall be included in the cost of construction as set forth in Items 18A and 18B above.
- (5) Service Lines and Service Connection Charges. Meters, meter boxes and service lines from the main to the meter will be installed by the Water District as required to customers adjacent to said main extensions, and the Water District shall be reimbursed for this service by the property owner in the form of a Service Connection Charge current at the time the service is made notwithstanding the following:
- a. The District may under certain circumstances, alter Service Connection Charges to exceed the standard Service Connection Charges in effect for the purposes of reimbursement to applicants desiring extensions under Item 18A, Normal Extensions, and Item 18B, Extensions to a Real Estate Subdivision, if said altered Service Connection Charges are approved by the State of Kentucky, Public Service Commission.
- (6) Potable Water - Maintenance of Lines. After the mains have been installed, tested and chlorinated to the satisfaction of the Health Department, the Hendron Water District shall then accept the responsibility for furnishing potable water to the extension and for maintenance of the lines including meters, meter boxes and service lines from the main to the meter.

TAP-ON FEE FOR 5/8" x 3/4" METER

JUSTIFICATION OF INCREASE IN FEE

The cost of a 5/8" x 3/4" tap-on varies depending on whether the new service is on the same side of a road as the water main or on the opposite side of the road. If the new service is on the opposite side of the road from the main, it will require boring under the road to install the service line. The cost for installing a new service has been estimated below for both cases including materials, labor and transportation, and equipment cost.

ESTIMATED COST FOR TAP-ON OF 5/8" x 3/4" METER

	Opposite from Main	Adjacent to Main
<u>Materials</u>		
a. Meter & Yoke	\$ 57.71	\$ 57.71
b. Meter Box	19.79	19.79
c. Quik-set & saddle	63.78	63.78
d. Copper service line @ \$1.00/ft.	50.00	10.00
e. Misc. couplings	6.30	6.30
	<u>\$197.58</u>	<u>\$157.58</u>
 <u>Labor & Transportation</u>		
a. 3 Men @ \$4.83/Hr. Avg. (5 Hrs.)	72.45 (3 hrs.)	43.47
b. Overhead & Administrative	36.23	21.74
50% of Labor	4.80	4.80
c. 2 vehicles x 12 miles @ \$0.20/mi.	<u>4.80</u>	<u>4.80</u>
	\$113.48	\$ 70.01
 <u>Equipment (Including depreciation, repairs, fuel & lubricants)</u>		
a. Boring machine		
2 Hrs. @ \$40.00/Hr.	80.00	0.00
b. Backhoe		
2 Hrs. @ \$20.00/Hr.	40.00	40.00
	<u>\$120.00</u>	<u>\$ 40.00</u>
	<u> </u>	<u> </u>
TOTALS	\$431.06	\$267.59

This results in an average cost of \$349.33 for a 5/8" x 3/4" tap-on at present. The Hendron Water District is requesting that the fee for a 5/8" x 3/4" tap-on be increased from \$300.00 to \$350.00.

RE-ESTABLISHING DISCONTINUED SERVICE

JUSTIFICATION OF INCREASE IN CHARGE

Re-establishing discontinued service requires two round trips to the service location: one to disconnect and remove the meter and one to re-establish the service. Each round trip will require one maintenance man for approximately 1-1/2 hours including loading the truck, driving to and from the service location, and accomplishing the work required at the site. The average distance from the Hendron Office to a service location is estimated at 6 miles resulting in an average round trip of 12 miles. The following are the estimated costs involved:

Labor	1.5 Hrs. @ \$4.83/Hr.	\$7.25
Truck Expense	12.0 Miles @ \$0.20/Mi.	2.40
Overhead (Estimated at 50% of labor cost)		<u>3.62</u>
Total per Trip		\$13.27
		<u>x 2</u>
TOTAL COST		\$26.54

The Hendron Water District is requesting that the charge for re-establishing a disconnected service be increased from \$15.00 to \$25.00.

RECONNECTION FEE
(Disconnected for Non-Payment of Bills)

JUSTIFICATION OF INCREASE IN FEE

This requires two round trip to the service location: one to disconnect service and one to reconnect the service. Each round trip will require one maintenance man for 3/4 hour and an average round trip distance of 12 miles. The following are the estimated costs involved:

Labor	0.75 Hrs. @ \$4.83/Hr.	\$3.62
Truck Expense	12.0 Miles @ 0.20/Mi.	2.40
Overhead (Estimated at 50% of labor cost)		<u>1.81</u>
Total Per Trip		\$7.83
		<u>x 2</u>
TOTAL COST		\$15.66

The Hendron Water District is requesting that the fee for reconnecting a service that was disconnected for non-payment of water bill be increased from \$5.00 to \$15.00.

**HENDRON WATER DISTRICT
WATER MAIN EXTENSION AGREEMENT
APPLICABLE ONLY FOR RESIDENTIAL NON-SUBDIVISION EXTENSIONS**

SEP 20 2000

This contract entered into by and between the HENDRON WATER DISTRICT and the following applicant(s):

(Place the names of the Applicants Here)

PURSUANT TO 807 KAR 5:011,
SECTION 2 (1)
BY: Stephen D. Bell
SECRETARY OF THE COMMISSION

for the purpose of extending a water main beginning at _____ and running to a point ending at _____. The District shall determine the total cost of the main extension (exclusive of the meter connections) and the total length of the extension. In order to assure an adequate supply of water, the design and construction of the water main and any appurtenances shall be performed by the District or the District's assigned representative. The District shall be responsible for and control the size of pipe, pipeline material, service taps, lateral main taps, installation and all future operation and maintenance of the water main.

The total length of the main extension is _____ linear feet of _____ inch PVC. The total cost of the main extension is \$_____.

The District shall pay that portion of the cost of the water main extension equal to 50 feet for each of the original and future applicants. That part of the cost not covered by the District's portion shall be contributed at \$_____ each by the first _____ (no. of original) applicants. Any applicant may contribute more than one share toward the cost of the water main if they wish to do so. Such additional contributions by any applicant(s) shall warrant refunds equal to the number of shares paid for. If one or more of the original applicants wish to finance their monetary obligation, the District will finance that portion of the project cost for the applicants. The term of the loan will be five years.

For each future applicant, the District will refund to the original _____ applicants that amount necessary to reduce their contribution to the currently calculated amount for each applicant connected to the extension. The refund will be calculated and dispersed annually on _____. The refund will be calculated by dividing the total applicant monetary obligation by the total number of applicants. A refund check will be issued directly to those applicants who paid their portion in full at the contract signing, while the current balance will be reduced by the refund amount for those applicants who chose to have the District finance their portion of the

project cost. The refund period will extend ten (10) years beginning from the date of the contract signing. In no event shall any contributor be refunded more than the amount paid to the District toward the cost of the main. All lateral or continued water main extensions from this extension shall be considered a new main extension and the applicants of the new main extension shall not be required to contribute to the cost of the original water main extension.

It is the intent of this contract to allow the District to finance the applicants' "tap on fee" in an effort to provide water service to more customers. The term of the loan will be five years from the date of this contract. The interest rate provided by the District to the customers will be one percent (1%) above the annual percentage rate (APR) charged to the district to acquire the funds to make this loan. The one percent (1%) is established to cover the District's loan operating expenses.

The District will require that a lien be placed on the residence where water service will be provided. The lien will be recorded in the form of a mortgage in the McCracken County Court House. The meter setting fee and the cost of the lien will be paid by the customer(s) prior to the District's setting the water meter. The applicant will be required to pay the full amount of the loan balance prior to transferring ownership of the residence where the water service will be provided. The total financial responsibility of each new customer including the tap on fee, meter setting fee, and lien fee is \$_____. The principal loan amount of each new customer is \$_____.

IN WITNESS WHEREOF, the parties have set their hands and seal to the above agreement on this the _____ day of _____, _____.

for the purpose of financing the applicants "tap on fee" for a water line that was previously extended along _____ Road beginning at _____ and extending to a point ending at _____. The District previously installed the main with financial assistance of the Kentucky Infrastructure Authority (KIA). The KIA Governmental Agencies Program Conditional Loan Commitment C91-12 "Water Line Extension and Storage Tank" established that the "tap on fee" (exclusive of the meter connections) associated with the water line extensions referred to in this document to be \$1,200.00. Subsequently, the Hendron Water District established the meter setting fee associated with the referenced projects to be \$450.00 per connection. Therefore, the previously determined monetary obligation per connection is \$1,650.00.

It is the intent of this contract to allow the District to finance the applicants' "tap on fee" in an effort to provide water service to more customers. The term of the loan will be five years. The interest rate provided by the District to the customers will be one percent (1%) above the annual percentage rate (APR) charged to the district to acquire the funds to make this loan. The one percent (1%) is established to cover the District's loan operating expenses.

The District will require that a lien be placed on the residence where water service will be provided. The lien will be recorded in the form of a mortgage in the McCracken County Court House. The meter setting fee and the cost of the lien will be paid by the customer(s) prior to the District's setting the water meter. The applicant will be required to pay the full amount of the loan balance prior to transferring ownership of the residence where the water service will be provided.

The total financial responsibility of each new customer including the tap on fee, meter setting fee, and lien fee is \$ _____. The principal loan amount of each new customer is \$ _____.

IN WITNESS WHEREOF, the parties have set their hands and seal to the above agreement on this the _____ day of _____, _____.

WATER SHORTAGE RESPONSE PLAN

HENDRON WATER DISTRICT

Section 1. Purpose. The purpose of this Plan is to provide for the declaration of official phases of water supply shortages and the implementation of voluntary and mandatory water conservation measures throughout the Hendron Water District in the event a shortage is declared.

Section 2. Definitions. These terms are applicable only for this Plan unless specifically noted.

- (a) "Customer" shall mean any person or entity using water for any purpose from the Hendron water distribution system and for which either a regular charge is made or, in the case of bulk sales, a cash charge is made at the site of delivery.
- (b) "Raw Water Supplies" shall mean all water potentially available to persons in the Hendron Water District
- (c) "Treated Water" shall mean water that has been introduced by the Hendron Water District into its water distribution system, including water offered for sale. Uses of treated water are classified as follows:

Essential Water Uses (Class 1):

The following uses of water, listed by site or user type, are essential.

Domestic:

- water necessary to sustain human life and the lives of domestic pets, and to maintain minimum standards of hygiene and sanitation.

Health Care Facilities:

- patient care and rehabilitation, including related filling and operation of swimming pools.

Water Hauling:

- sales of domestic use where not reasonably available elsewhere.

Public Use:

firefighting,

- health and public protection purposes, if specifically approved by health officials.

Socially or Economically Important Uses (Class 2):

The following uses of water, listed by site or user type, are socially or economically important.

Domestic:

- personal, in-house water use including kitchen, bathroom and laundry.

Water Hauling:

- non-domestic, when other sources are not reasonably available elsewhere.

Commercial and Civic Use:

- commercial car and truck washes,
- laundromats
- restaurants, clubs and eating places.
- schools, churches, motels/hotels and similar commercial establishments.

Outdoor Non-Commercial Watering:

- minimal watering of vegetable gardens,
- minimal watering of trees where necessary to preserve them.

Outdoor Commercial or Public Watering (using conservation methods and when other sources of water are not available or feasible to use):

- agricultural irrigation for the production of food and fiber or the maintenance of livestock,
- watering by arboretums and public gardens of national, state, regional or community significance where necessary to preserve specimens,
- watering by commercial nurseries at a minimum level necessary to maintain stock,
- watering at a minimum rate necessary to establish or maintain revegetation or landscape plantings required pursuant to law or regulation,

PUBLIC SERVICE COMMISSION

PURSUANT TO 807 KAR 5.011,
SECTION 9(1)

BY Stephan D. Bell
SECRETARY OF THE COMMISSION

- watering of woody plants where necessary to preserve them,
- minimal watering of golf course greens.

Recreational:

- operation of municipal swimming pools and residential pools that serve more than 25 dwelling units.

Air Conditioning:

- refilling for startup at the beginning of the cooling season,
- makeup of water during the cooling season,
- refilling specifically approved by health officials where the system has been drained for health protection or repair services.

Non-Essential Uses (Class 3):

Any waste of water, as defined herein, is non-essential. The following uses of water, listed by site or user type, are non-essential.

Public Use:

- use of fire hydrants (excluding Class 1 and Class 2 uses), including use of sprinkler caps, testing fire apparatus and fire department drills,
- flushing of sewers and hydrants except as needed to ensure public health and safety as approved by health officials.

Commercial and Civic Use:

- serving water in restaurants, clubs, or eating places, except by customer request,
- failure to repair a controllable leak,
- increasing water levels in scenic and recreational ponds and lakes, except for the minimum amount required to support fish and wildlife.

Ornamental Purposes:

- fountains, reflecting pools and artificial waterfalls.

PURSUANT TO 807 KAR 5.011,
SECTION 9(1)

BY Stephan O. Bell
SECRETARY OF THE COMMISSION

Outdoor Non-Commercial Watering:

- - use of water for dirt control or compaction,
- watering of annual or non-woody plants, lawns, parks, golf course fairways, playing fields and other recreational areas,
- washing sidewalks, walkways, driveways, parking lots, tennis courts or other hard-surface areas,
- washing down buildings or structures for purposes other than immediate fire protection,
- flushing gutters or permitting water to run or accumulate in any gutter or street.

Outdoor Commercial or Public Watering:

- expanding nursery facilities, placing new irrigated agricultural land in production, or planting of landscaping except when required by a site design review process,
- use of water for dirt control or compaction,
- watering of lawns, parks, golf course fairways, playing fields and other recreational areas,
- washing sidewalks, walkways, driveways, parking lots, tennis courts or other hard-surface areas,
- washing down buildings or structures for purposes other than immediate fire protection,
- flushing gutters or permitting water to run or accumulate in any gutter or street.

SECTION 9 (1)

BY Stephan O. Bell
SECRETARY OF THE COMMISSION

Recreational uses other than those specified in Class 2.

Non-commercial washing of motor and other vehicles.

Air Conditioning (see also Class 2 purposes):

- refilling cooling towers after draining.

(d) "Base Entitlement" shall mean the monthly usage for a customer during the same month of the preceding calendar year or the average per customer usage for each class of service during the same month of the preceding year.

(e) "Curtailed Entitlement" shall mean the monthly usage for a customer after any curtailment percentage has been applied.

(f) "Curtailment" shall mean the reduction in entitlement by some percentage to meet anticipated water shortages.

(g) Water Shortage Response Phases:

"Advisory" shall mean that conditions exist which indicate the potential for serious raw or treated water supply shortages.

"Alert" shall mean the raw or treated water supplies are consistently below seasonal averages, and if they continue to decline, may not be adequate to meet normal needs.

"Emergency" shall mean that raw or treated water supplies are below the level necessary to meet normal needs and that serious shortages exist in the area.

"Rationing" shall mean that procedures must be established to provide for the equitable distribution of critically-limited raw or treated water supplies, in order to balance demand and limited available supplies, and to assure that sufficient water is available to preserve public health and safety.

Section 3. Applicability. The provisions of this Plan shall apply to all retail and wholesale customers of the Hendron Water District. When implemented, this Plan becomes Hendron Water Shortage Response Regulation.

Section 4. Entitlements. Entitlements shall be established for each customer by adjusting the base entitlement to reflect any known change in usage pattern.

Section 5. Determination of Water Shortage. Water supply and usage shall be monitored on a continuous basis. Unrestricted demand shall be projected from past records and adjusted for changes such as new developments and weather conditions on a regular basis. (Note: A sample calculation page is attached as Appendix A to assist in determining overall water levels. It is important that accurate water measurements be used.) Water shortages generally occur for two reasons, a reduction in available supplies or a system failure. Each of these has a distinct influence on the nature and duration of the conservation program implemented. Official declaration of a water shortage stage and implementation of the measures necessary to curtail water use shall be approved by the Hendron Water District and Fiscal Court.

Section 6. Term of Water Shortage Declaration. Any water shortage declaration shall remain in effect until water supplies of service conditions have returned to normal. A final determination as to terminating a water shortage declaration shall be made by the Chairman of Board and Hendron Water District of Paducah, KY.

Section 7. Water Shortage Stage, Criteria, Conservation and Curtailment Measures.

A. Advisory Stage:

- (1) Criteria: A water advisory shall be declared when the amount of treated water or raw water available for treatment is projected to be up to 10% below demand, or there are periods of low water pressure in one or more areas of the distribution system due to system failure or inadequacies or the State Division of Water issues a Water Shortage Watch which includes the areas from which the Hendron Water District draws water. (Note: Additional conditions may be added based on local conditions.)

(2) Conservation and Curtailment Measures:

- (a) Declare a Water Shortage Advisory.
- (b) Provide proper notice to all customers and to all local news media.
- (c) Eliminate all water leaks.
- (d) Request voluntary conservation of all non-essential (Class 3) water use.
- (e) Request wholesale customers also issue request for voluntary conservation by their customers of all non-essential (Class 3) water use.

B. Alert Stage:

- (1) Criteria: A water alert shall be declared when the amount of treated water available is projected to be up to 10% below demand, or raw water supplies are consistently below seasonal averages and if they continue to decline, may not be adequate to meet normal needs. (Note: Additional conditions may be added based on local conditions.)

(2) Conservation and Curtailment Measures:

- (a) Declare Water Shortage Alert.
- (b) Provide proper notice to all customers and to all local news media.
- (c) Eliminate all water leaks.
- (d) Prohibit all non-essential (Class 3) water uses.

PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE

PURSUANT TO 807 KAR 5.011,
SECTION 9 (1)

BY Stephan B. Bell
SECRETARY OF THE COMMISSION

(e) Curtail entitlements to all customers by the same percentage as the projected shortage.

(f) Begin billing all customer water usage in excess of curtailed entitlement at the normal rate plus an excess usage charge of \$3.00 per 1,000 gallons.

C. Emergency Stage:

1. Criteria: A Water Emergency shall be declared when the amount of treated water available is projected to be up to 20% below demand, or there are periods of no water in one or more areas of the distribution system due to low water supply or raw water supplies below the level necessary to meet normal needs. (Note: Additional conditions may be added based on local conditions.)

2. Conservation and Curtailment Measures:

(a) Declare Water Shortage Emergency.

(b) Provide proper notice to all customers and to all local news media.

(c) Eliminate all water leaks.

(d) Prohibit all Class 3 uses of water.

(e) Prohibit all Class 2 uses of water except Domestic uses for kitchens, bathrooms and laundries.

(f) Curtail all commercial and industrial entitlements (except Health Care Facilities) by 100%.

(g) Curtail Residential entitlements by the same percentage as the projected shortage.

(h) Curtail entitlements to all wholesale customers by the same percentage as the projected shortage.

(i) Begin billing all customer water usage in excess of curtailed entitlement at the normal rate plus an excess usage charge of \$7.00 per 1,000 gallons.

PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE

SECTION 9(1)

BY Stephan D. Bell
SECRETARY OF THE COMMISSION

D. Rationing Stage:

1. Criteria: Treated water available is greater than 40% below demand or raw water supplies are below

the level necessary to meet essential needs, and in the opinion of Hendron Water District, mandatory rationing is required to insure adequate water is available to maintain public health and safety.

2. Conservation and Curtailment Measures:

- (a) Declare Water Shortage Rationing.
- (b) Provide proper notice to all customers and to all local news media.
- (c) Eliminate all water leaks.
- (d) Prohibit all Class 3 and Class 2 uses of water.
- (e) Curtail all commercial and industrial entitlement (except Health Care Facilities) by 100%.
- (f) Curtail all residential and wholesale entitlements by the same percentage as the projected shortage.
- (g) Implement service interruptions to portions of system in accordance with approved published schedule. The schedule shall be provided to all local media.
- (h) Begin billing customer water usage in excess of curtailment entitlement at the normal rate plus an excess usage charge of \$15.00 per 1,000 gallons.

PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE

PURSUANT TO 807 KAR 5:011
SECTION 9(1)

BY: Stephan D. Bell
SECRETARY OF THE COMMISSION

Section 8. Enforcement of Water Restriction. Any person who violates the provisions of this Plan, who fails to carry out the duties and responsibilities imposed by this Plan, or who impedes or interferes with any action undertaken or ordered pursuant to this Plan shall be subject to the following:

- (a) If the utility official charged with implementation and enforcement of this Plan learns of any violation of any water use restriction imposed, a written notice of the violation shall be affixed to the property where the violation occurred and mailed to the customer of record. Said notice shall describe the violation and order that it be corrected, cured, or abated immediately or within 48 hours.
- (b) The notice will inform the customer of his or her right to appeal by requesting a hearing before the utility's designee. If a hearing is requested by the customer, he or she shall be given full opportunity to be heard

before termination. The governing body shall make findings of fact and decide whether service should continue or terminate.

- (c) Any customer whose water service is terminated for violating provisions of this water curtailment plan shall be subject to the approved reconnection fee prior to reconnection of service.
- (d) The excess usage charge billing provisions of this Plan shall not be put in effect if a county or city ordinance containing penalty provisions is in effect to assist enforcement of this Plan.

Section 9. Request for Exception.

(a) Exception to water use restrictions: If compliance with any curtailment measure authorized herein would cause a customer to bear extraordinary hardship, that individual or entity may apply to the Hendron Water District for an exception. For these purposes, "extraordinary hardship" shall be defined as a condition which may threaten health and safety, or cause property or economic losses, each of which must be shown to be substantially more severe than the sacrifices borne by other users. If extraordinary hardship is found to exist, then an exception shall be granted and a written waiver issued to the customer. If an appeal is made, water service shall be continued until a decision is announced. Any person aggrieved by the decision may file a complaint with the Public Service Commission.

- (b) Exception to curtailment surcharge: Exceptions to excess use charges shall not be considered or granted.

Section 10. Severability. If any provision of this Plan is declared invalid by the courts, the remainder of the Plan and its applicability to other persons and circumstances shall not be affected by that declaration.

Section 11. Effective Date. This Plan shall take effect immediately upon approval by the Public Service Commission.
